Blackbridge Sports Club

Client: A.J Taylor Ltd | **Location:** Gloucester

Value: £100k | **Services:** Building Services (MEP) |

The Brief

ONE's electrical team were commissioned by A.J Taylor Ltd for the electrical detailed design to stage 5 for a new community and sports hub.

Project Overview

Blackbridge community and sports hub combines youth provision and sports facilities and a whole range of community and family support services.

The project includes the current facilities in Podsmead, Gloucester, as well as walking and running routes, childrens play area and a new building with a gym, meeting space and bar.

ONE's electrical engineers included a number of sustainable features on this project including LED lighting, heat recovery, intelligent lighting control, PV and EV chargers.
